INDEPENDENT AUDITORS' REPORT

Board of Commissioners
Prairie Gregg Gravity Drainage District
and Sub Drainage District #2
Vermilion Parish, Louisiana

We have audited the accompanying financial statements of the governmental activities and major fund of the Prairie Gregg Gravity Drainage District and Sub Drainage District #2, (the Drainage District), a component unit of the Vermilion Parish Police Jury, as of and for the years ended December 31, 2004 and 2003, which collectively comprise the Drainage District's basic financial statements as listed in the table of contents. These basic financial statements are the responsibility of the Drainage District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above, present fairly, in all material respects, the respective financial position of the governmental activities and major fund of the Drainage District, as of December 31, 2004 and 2003, and the respective changes in financial position thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with <u>Government Auditing Standards</u>, we have also issued a report dated April 8, 2005, on our consideration of the Drainage District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> and should be read in conjunction with this report in considering the results of our audit.

The Drainage District has not presented the management's discussion and analysis that the Governmental Accounting Standards Board has determined necessary to supplement, although not required to be part of, the basic financial statements.

The accompanying financial information listed as "Supplementary Information" in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements of the Prairie Gregg Gravity Drainage District and Sub Drainage District #2. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The financial information for the preceding year, which is included for comparative purposes, was taken from the financial report for that year in which we expressed an unqualified opinion on the general purpose financial statements of the Prairie Gregg Gravity Drainage District and Sub Drainage District #2.

Notes to Financial Statements

(1) Summary of Significant Accounting Polices

The accompanying financial statements of the Prairie Gregg Gravity Drainage District and Sub Drainage District #2 (the Drainage District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. In the government-wide financial statements the Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions on or before November 30, 1989, have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of these notes.

Such accounting and reporting procedures also conform to the requirements of Louisiana Revised Statues 24:517 and to the guides set forth in the industry audit guide, <u>Audits of State and Local Governments</u>.

The following is a summary of certain significant accounting policies:

A. Financial Reporting Entity

Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification) established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Oversight responsibility by the police jury is determined on the basis of the following criteria:

- 1. Appointment of governing board
- 2. Designation of management
- 3. Ability to significantly influence operations
- 4. Accountability for fiscal matters
- 5. Scope of public service

Because the police jury created the District and appoints its board of commissioners, the Drainage District was determined to be a component unit of the Vermilion Parish Police Jury, the governing body of the parish and the governmental body with oversight responsibility. The accompanying financial statements present information only on the funds maintained by the Drainage District and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the governmental reporting entity.

Notes to Financial Statements (Continued)

B. Basis of Presentation

Government-Wide Financial Statements (GWFS)

The statement of net assets and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Drainage District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients for goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

C. Fund Accounting

The accounts of the Drainage District are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

The Drainage District maintains only one fund. It is categorized as a governmental fund. The emphasis on fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the entity or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- b. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

Notes to Financial Statements (Continued)

The major fund of the Drainage District is described below:

Governmental Fund -

General Fund

The General Fund is the general operating fund of the Drainage District. It is used to account for all financial resources except those required to be accounted for in another fund.

D. Measurement Focus/Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide statement of net assets and the statement of activities, governmental activities are presented using the economic resources measurement focus as defined in item b. below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- a. The governmental fund utilizes a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on its balance sheet. Their operating statement presents sources and uses of available spendable financial resources during a given period. This fund uses fund balance as its measure of available spendable financial resources at the end of the period.
- b. The government-wide financial statement utilizes an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net assets (or cost recovery) and financial position. All assets and liabilities (whether current or noncurrent) associated with its activities are reported. Government-wide fund equity is classified as net assets.

Notes to Financial Statements (Continued)

Basis of Accounting

In the government-wide statement of net assets and statement of activities, the governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures (including capital outlay) generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

E. Assets, Liabilities and Equity

Cash and interest-bearing deposits

For purposes of the statement of net assets, cash and interest-bearing deposits include all demand accounts and certificates of deposits of the Drainage District.

Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the governmental activities column in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The Drainage District maintains a threshold level of \$500 or more for capitalizing capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Notes to Financial Statements (Continued)

Depreciation of all exhaustible capital assets is recorded as an expense in the statement of activities, with accumulated depreciation reflected in the statement of net assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Equipment 5-10 years

Compensated Absences

Full time employees of the Drainage District with more than one year of service are allowed two weeks of vacation leave each year; full-time employees with one year of service or less are allowed one week of vacation leave each year. Vacation leave does not accumulate from year to year. Full-time employees are allowed one day sick leave for each month worked beginning with the day they are employed. Employees can accumulate up to 148 days of sick leave, but the sick pay does not vest upon termination. Employees who resign, retire or are dismissed from employment shall not be paid for any accrued sick leave.

Equity Classifications

In the government-wide statements, equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net assets Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

In the fund statements, governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved further split between designated and undesignated.

Notes to Financial Statements (Continued)

F. Revenues, Expenditures, and Expenses

Expenditures/Expenses

In the government-wide financial statements, expenses are classified by character and function. In the fund financial statements, expenditures are classified by character.

G. Budgetary Practices

The Drainage District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The Drainage District's Secretary/Treasurer prepares a proposed budget and presents it to the Board of Commissioners prior to ninety days before the beginning of each fiscal year.
- 2. After the proposed budget is presented to the Board of Commissioners, the Board publishes the proposed budget and notifies the public that the proposed budget is available for public inspection. At the same time, a public hearing is called.
- 3. A public hearing is held by the Board on the proposed budget at least ten days after publication of the call for the hearing.
- 4. Any changes in the proposed annual operating budget requires a majority vote of the Board of Commissioners.
- 5. No later than the last regular meeting of the fiscal year, the Board of Commissioners adopts the annual operating budget for the ensuing fiscal year.
- 6. Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. Budget appropriations lapse at year-end.

H. <u>Use of Estimates</u>

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Notes to Financial Statements (Continued)

I. Report Classification

Certain previously reported amounts for the year ended December 31, 2003 have been reclassified to conform to the December 31, 2004 classifications.

J. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the Drainage District as an extension of formal budgetary integration in the funds.

(2) <u>Cash and Interest-Bearing Deposits</u>

Under state law, the Drainage District may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The Drainage District may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At December 31, 2004 and 2003, the Drainage District has cash and interest-bearing deposits (book balances) totaling \$211,399 and \$89,624, respectively, as follows:

	2004	2003
Demand deposits	\$ 15,940	\$ 2,876
Interest-bearing demand and savings accounts	195,459	86,748
Totai	\$211,399	\$ 89,624

These deposits are stated at cost, which approximates market. Under state law, these deposits, (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. Deposit balances (bank balances) at December 31, 2004, are secured as follows:

Bank balances	\$ 213,092
Federal deposit insurance	117,632
Pledged securities (Category 3)	95,460
Total federal deposit insurance and pledged securities	\$ 213,092

Pledged securities in Category 3 include uninsured or unregistered investments for which the securities are held by the broker or dealer, or by its trust department or agent, but not in the Drainage District's name. Even though the pledged securities are considered uncollateralized (Category 3), Louisiana Revised Statue 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Drainage District that the fiscal agent has failed to pay deposited funds upon demand.

Notes to Financial Statements (Continued)

(3) Capital Assets

Capital asset balances and activity for the year ended December 31, 2004 is as follows:

	Balance 01/01/04	Additions	Deletions	Balance 12/31/2004
Capital assets not being depreciated: Equipment	\$ 605,783	\$ -	\$ -	\$ 605,783
Less accumulated depreciation: Equipment	408,833	48,692		457,525
Net capital assets	\$ 196,950	\$ 48,692	\$ -	\$ 148,258

Depreciation expense, which totaled \$48,692 for 2004 and 2003, was charged to the public works function.

(4) Accounts, Salaries, and Other Payables

The accounts, salaries, and other payables consisted of the following at December 31, 2004 and 2003:

	2004	2003
Accounts	\$ 323	\$ 2,923
Salaries payable	549	537
Accrued interest	<u>714</u>	4,590
Totals	<u>\$ 1,586</u>	\$ 8,050

(5) Ad Valorem Taxes

Ad valorem taxes attach as an enforceable lien on property as of January 1 of each year. Taxes are levied in November 15 and are actually billed to the taxpayers in December. Billed taxes are due by December 31, becoming delinquent on January 1 of the following year.

Tax revenues are recognized in the year they are billed.

The taxes are based on assessed values determined by the Tax Assessor of Vermilion Parish and are collected by the Sheriff. The taxes are remitted to the Drainage District net of deductions for Pension Fund Contributions.

For the years ended December 31, 2004 and 2003, taxes of 34.40 and 30.07 mills were levied on property with net assessed valuations totaling \$13,745,360 and \$10,974,270, respectively, and were dedicated to paying the administrative, operations and maintenance expenditures for the Drainage District.

Notes to Financial Statements (Continued)

Total taxes levied during 2004 and 2003 were \$472,840 and \$329,996, respectively. Taxes receivable at December 31, 2004 and 2003 amounted to \$427,244 and \$315,819, respectively.

(6) Compensation Paid Board of Commissioner

The schedule of compensation paid board of commissioners is presented in compliance with House Concurrent Resolution No. 54 of the 1979 Session of the Louisiana Legislature. The per diem paid to board members is included in the expenditures of the General Fund. Each member of the board receives \$60 for each day of attendance at meetings of the board. The schedule of compensation at December 31, 2004 and 2003 are as follows:

		2003
J.C. Broussard	\$ -	\$ 900
Mark Broussard	900	1,440
Carroll Primeaux	600	1,500
H.L. Moss	720	1,260
Emile Thibodeaux	780	1,500
Willie Morgan	660	420.00
Total	\$3,660	\$7,020

(7) <u>Changes in Long-Term Debt</u>

The following is a summary of long-term debt transactions of the Drainage District for the year ended December 31, 2004:

Balance, January 1, 2004	\$ 85,049
Deletions	(63,985)
Balance, December 31, 2004	\$ 21,064

Notes to Financial Statements (Continued)

The annual requirements to amortize all debt outstanding at December 31, 2004, including interest payments of \$1,168 are as follows:

Year Ending December 31,	Capital Lease
2005	\$ 8,606
2006	8,606
2007	5,020
	\$ 22,232

(8) <u>Leases</u>

The District entered into an operating lease for the use of a John Deere 6420 utility tractor, a John Deere MX10 cutter, and a diamond side boom mower. The lease was entered into on May 30, 2002, and has a two-year term ending on June 30, 2004. Total expenditures for this lease totaled \$8,247 and \$8,245 for the years ended December 31, 2004 and 2003, respectively.

(9) <u>Litigation</u>

There was no litigation pending against the Drainage District at December 31, 2004.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Commissioner Prairie Gregg Gravity Drainage District and Sub Drainage District #2 Vermilion Parish, Louisiana

We have audited the financial statements of the Prairie Gregg Gravity Drainage District and Sub Drainage District #2, a component unit of the Vermilion Parish Police Jury as of and for the years ended December 31, 2004 and 2003, and have issued our report thereon dated April 8, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the Drainage District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under <u>Government Auditing Standards</u> which is described in the accompanying summary schedule of current and prior year audit findings and management's corrective action plan as item 04-2(C).

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Drainage District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. However, we noted a certain matter involving the internal control over financial reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the Drainage District's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements. The reportable condition is described in the accompanying summary schedule of current and prior year audit findings and corrective action plan at item 04-1(IC).

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe the reportable condition described in the accompanying schedule of current and prior year audit findings and corrective action plan at Item 04-1(IC) is a material weakness.

This report is intended solely for the information and use of management and is not intended to be and should not be used by anyone other than those specified parties. However, under the provisions of Louisiana Revised Statutes 24:513 and 44:6; this report is a matter of public record and its distribution is not limited.
